Dear Mr Weisberg:

I am deeply interested in President Kennedys Assassination, I have read every Book that is out regarding the Warren Commission's Report. I found in all honesty that your 2 Books W Like Wash 1-2 are the Best and most sensible. I Cannot and never will believe one man murdered the President. I would like to ask you if you have read William Manchesters Death of a President? Well on Pages 156 — 157 he discusses about the shots that hit both men. Below in small print he talks about the X Ray pictures which he proves went thru the president and into Governor Connoly.

What I would like to know is what do you think of this (the X Ray pictures he talks about in his book) and your own belief in regards to the X Ray pictures. Last, have you ever saw the x ray pictures yourself? Thank you for taking the time to read my letter, I hope you can reply.

Sincerly

Charles Hocker
